His not afraid of his concern Because the act is a sin, thas whats wrong with him. Why would you risk burning in hell for personal gratification? It's something you can't come back from. Why don't they look for him in the opposite sex? You didn't sin until you did the act, its not a way of life, it's an easy choice. Finding the same sex attractive doesn't make you gay, having sex with them does. You may think that the same floor is attractive without its value anything. People may say they don't believe it, but that doesn't mean something's wrong. If you're wrong, you burn. If im wrong! Just rot in the ground. That's a risk they're not willing to take. I think he's talking about a glitch in the LP (Light Platinum Plus). The solution is to download save to another version of Light Platinum, which doesn't have a glitch, complete the event and then download save back. Here's a simple tutorial if you don't know how to save inside the game, before the event in the LP. Download Light Platinum Final (above) and move it to the Light Platinum Plus folder is in (if it's still if you haven't renamed anything, you should have light-platinum-plus.zip files and light-platinum-final.zip (gba is also good) in the same folder. Find light-platinum-plus.sav in the same folder and rename it light-platinum-final.sav. Now open Light Platinum Final in MyBoy and finish the event. Event. light-platinum-final.sav return to light-platinum-plus.sav, and now you should be able to continue in the LP. Hey, I've been playing this since yesterday, now going to the third gym, so far so good. In addition, the features that you've already added, there is also, decapitalizing the items in the bag, and when you find them, Pokemon names in the battle screen, Pokedex and Summary (attack decap, a) Cities and city titles also decap when you get to town, but when another trainer or mentions them it is still in capital letters as well as trainer type and name in the NPC including important characters like RED (Outworld) Pkmm Trainer Red in Battle, the other feature that I've seen so far is that some Pokemon 4th and 5th generation have their original screams, except for Sinnoh initials. Just a comment I personally think it would be the best of all Pokemon hacks if it is completely decap day and night system I love sprites of old Pokemon on the 5th gene package. It also has new moves after the 3rd generation I beat the first elite four, now going through the 7th Laurent Gym, the mistake so far is that when you just get Awex at Drakebreath City, sometimes when you go to his resume game freezes, so I did that I put a summary of other Pokemon and go to Awex, sometimes work sometimes not, I did it until I got it Adamant Nature then I saved when I left the house, I looked at this resume it was good, it did not freeze and no problems with its evolution. The only exp you get after defeating Aggon is a lot less than what you should get. But many others have been corrected, such as Salamences, Metagrass and others who in the original game do not give you the original exp they need to beat them, or those that gave you too much like Venipede its not homophobic lol, it means that you have a fear of homosexuals.
